

Nickname: _____

P.3/1-4 English for Science Prefinal Review

Part A : Label the ORGAN SYSTEMS

 1. _____ System	 2. _____ System	 3. _____ System	 4. _____ System
 5. _____ System	 6. _____ System	 7. _____ System	
a. Muscular b. Nervous c. Digestive d. Excretory e. Skeletal f. Circulatory (Blood) g. Respiratory (Breathing)			

Part B: Match the ORGAN SYSTEM with the JOB

1. Digestive System	a. move body
2. Muscular System	b. bones give the body shape
3. Skeletal System	c. remove unwanted waste from the body
4. Excretory System	d. break down (digest) food into simpler substances.
5. Nervous System	e. heart pumps to move blood to our body parts
6. Respiratory System	f. brain controls our body/ send and receive information
7. Circulatory System	g. breathe

Part C : Fill in the blanks

1. An **ADULT** has _____ **teeth**.

2. A **BABY** has _____ **teeth**.

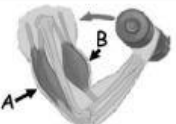

3. An **ADULT** has _____ **bones**.

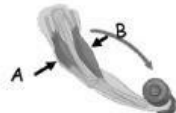

4. The **smallest** bone is in the _____.

5. The **biggest** bone is in the _____.

6. _____ is **salty water** that comes from our skin when we are hot or exercise.

7. _____ is a **red liquid** inside our body.

8.  A. Muscle A: _____
B. Muscle B: _____

9.  A. Muscle A: _____
B. Muscle B: _____

a. ear

b. leg

c. 32

e. 206

f. 20

g. blood

h. sweat

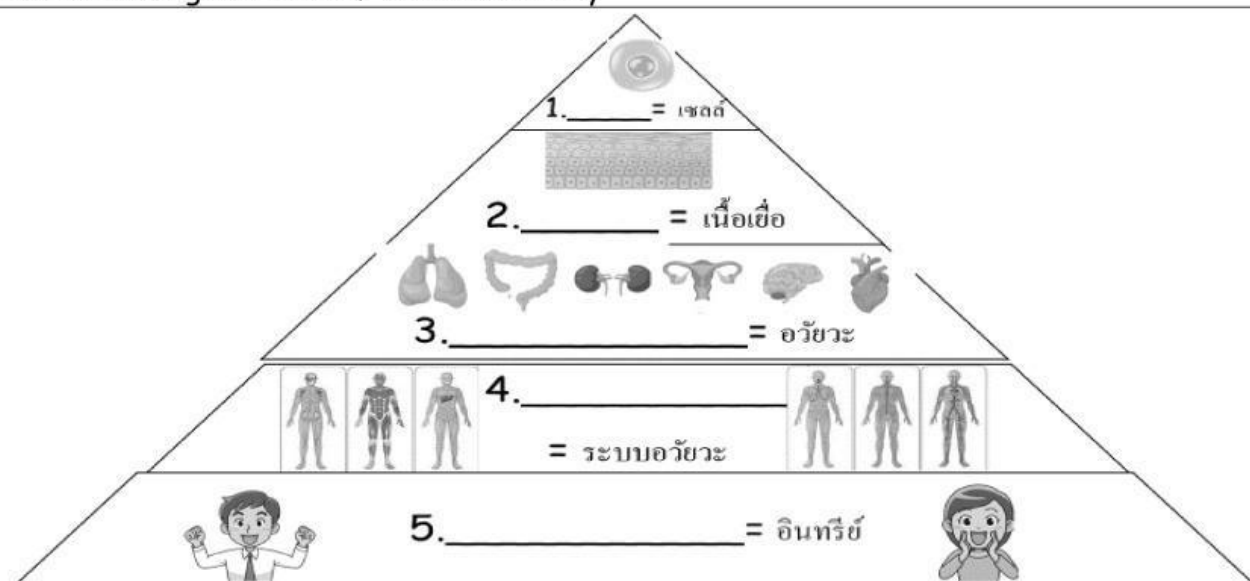

i. relax (gets longer)

j. relax (gets longer)

k. contracts (gets shorter)

l. contracts (gets shorter)

Part D: Label the organization of the human body

a. Tissue

b. Organs

c. Cells

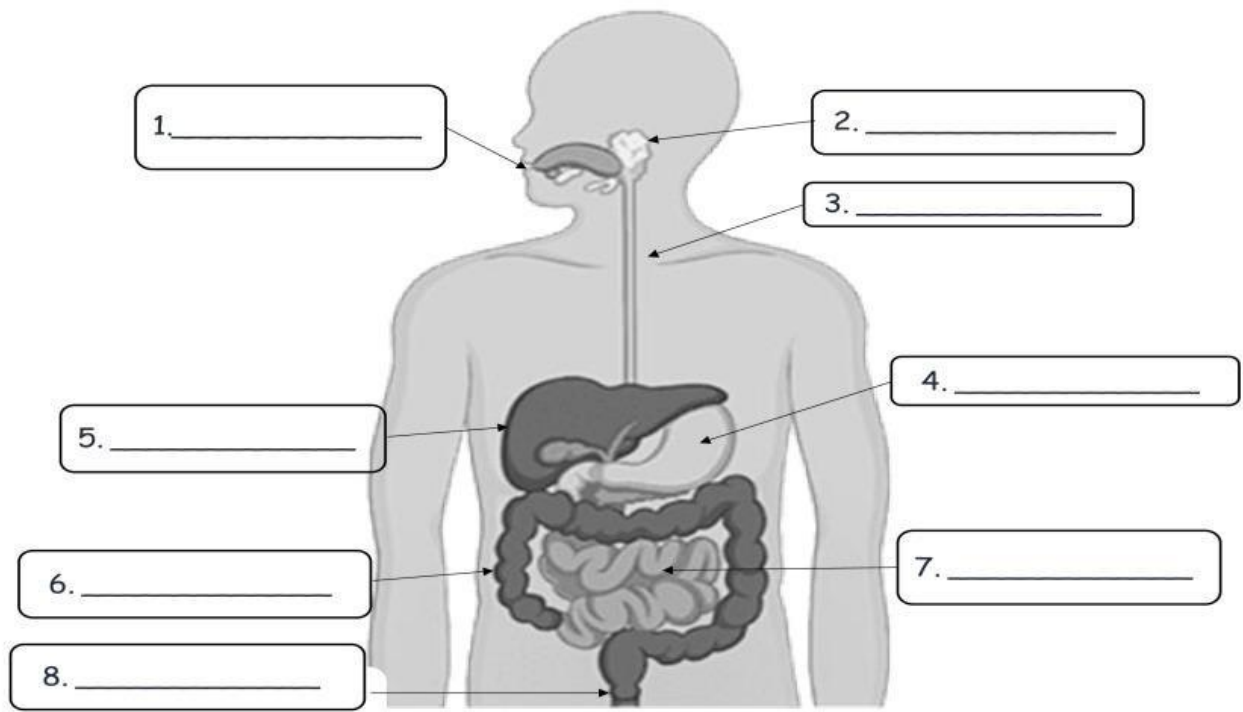

d. Organ Systems

e. Organisms

Part E: Label the ORGANS

1. 	2. 	3. 	4. 
5. 	6. 	7. 	8. 
9. 	10. 	11. 	12. 
a. kidneys b. brain c. small intestine d. heart e. nerves f. skull g. lungs h. stomach i. large intestine j. backbone k. muscle l. rib cage			

Part F: Label the parts of the digestive system

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

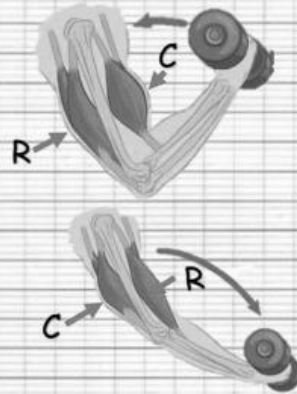

a. small intestine b. large intestine c. salivary glands d. mouth
 e. liver f. anus g. food pipe h. stomach

The Muscular System

1. Allow your body to **move**.

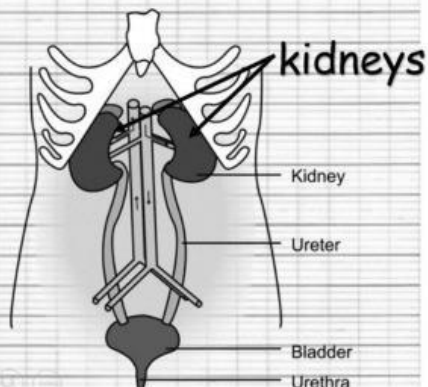

- a. **Muscles** (กล้ามเนื้อ)
 - pull (ดึง) your bones by:
 - Relaxing (ผ่อนคลาย) and
 - Contracting (หดตัว)

The Excretory System

ระบบขับถ่าย

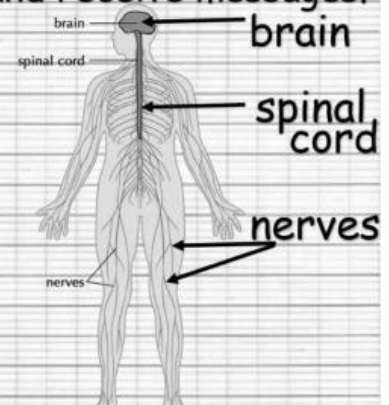

Removes unwanted **waste** from the body.

The Nervous System

ระบบประสาท

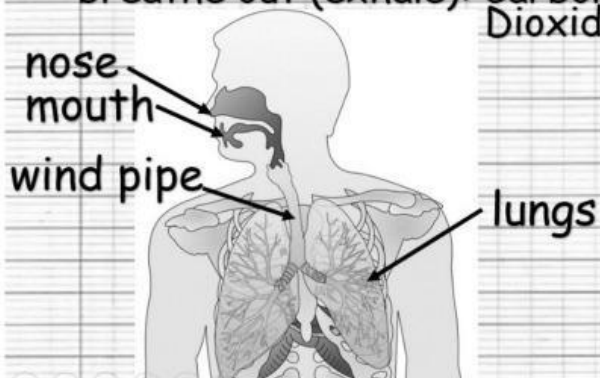

- Controls our body.
- Send and receive messages.

Respiratory System

ระบบทางเดินหายใจ

- a) **Lungs** allow us to:
 - breathe in (inhale): Oxygen
 - breathe out (exhale): Carbon Dioxide

Circulatory System

ระบบไหลเวียน

- a) **Heart** pumps **blood** to our body's **organs**.
