Directions: Let's make a paragraph today.

Will it be a sweet dish, like a cupcake or a muffin? Maybe it will be a savory dish like a new type of pizza? What ingredients will your new dish use? You could use normal ingredients or even something really strange like flowers and gummy bears. How will you make the dish? Does it need to be baked in an oven? Or maybe it needs to be grilled on a barbecue? How long will it take to prepare? And how will it served to your customers? Will it be served on a regular plate or will it be cooked at the table?
