2 **Read the leaflet about the Durrell Wildlife Park. Match the information with the notes.**

Have an amazing time at the Durrell Wildlife Park and meet the animals that we're helping to survive in the wild! — 1 d

There are so many things to do! You can:

- camp in the park. — 2 ☐
- be a zoo-keeper and work with the animals for a whole day. You make their food and help to feed them. You clean the places where they live, too. — 3 ☐
- adopt an animal and get regular news and photos about it. — 4 ☐
- prepare special food for the apes. Get the best seats to watch the gorillas and orang-utans enjoy their dinner! — 5 ☐
- walk through the woods and see how the lemurs live. You can get really close to them and take amazing photos! — 6 ☐

a Great photos! Only had half an hour but saw all the lemurs.
b Definitely. I'm choosing a Tamarin monkey and a lemur and ...
c Made food for two but saw ten!
d ~~Were only 10 Echo Parakeets in the world – now 500!~~
e Too dirty – not for me!
f Great tents! Noisy neighbours though.

3 **Complete the blog with quantifiers. Use the information in Exercise 2 to help you.**

I loved my visit to the wildlife park. We spent the night in a tent. The animals made [1] *a lot* of noise but I didn't mind.
Next morning I helped to feed some of the animals but I didn't clean their houses. There was [2] _____ dirt for me! I didn't make [3] _____ food for the apes. I only made [4] _____ – and they were very hungry! In the afternoon we walked in the lemur woods. We didn't have [5] _____ time but we saw [6] _____ lemurs.
Before we left, we listened to a talk about animals that need our help. I learned that not long ago there were only [7] _____ Echo Parakeets but now there are more than 500.
Mum says I can adopt an animal. I don't want to adopt just one or two though – I want to adopt [8] _____ of animals!
