

Unit 6, Lesson 4, The Pyramids

Fill the blank with correct word(s)

There are many ancient sites all over the world. This is Stonehenge.

It's in the UK and it's around years old. There are 83 here and they are very heavy.

It took a lot of people and a lot of time Stonehenge.

People these big stones for over 40 kilometers and they pulled these small stones for over 320 kilometers!

Today we still don't know what Stonehenge was. But we know it was

This is the Great Wall of China. The wall is 21,196 kilometers long and has some parts that are 2,000 years old.

For hundreds of years, farmers, workers, and cut these stones and helped to build the wall.

It took thousands of people hundreds of years to build the Great Wall.

Today, the Great Wall of China and Stonehenge in the UK are very famous.

But probably the most ancient site in the world is the Great Pyramid of Giza in Egypt. There are many in Egypt, but this pyramid is the biggest.

It's about 4,500 years old. It took about twenty years to build and it has approximately two million stones.

The Great Pyramid, with the statue of the Sphinx, is one of the most famous sites to visit in the world. Around 4 million people come here every year.

Stonehenge, the Great Wall of China, and the Great Pyramid are all very old sites, and it took a lot of people and a lot of time to build them.
