

Transportation Song

Listen and choose the correct word.

You can drive a **car** / **van**.

You can drive a **truck** / **train**.

You can ride on a **train** / **plane**
or in a **car** / **bus**.

How do you get from A to B --
over land, through the air or on the sea?

You can ride a **scooter** / **skateboard**.

You can ride a **bicycle** / **bike**.

You can ride a **motorcycle** / **unicycle**
if you like.

How do you get from A to B --
over land, through the air or on the sea?

You can sail a **sailboat** / **yacht**
if the wind is right.

Or inside a **submarine** / **ship**
if it's water-tight.

You can fly a **plane** / **balloon**
way up in the sky

Or a **spaceship** / **helicopter**
if you want to try.

How do you get from A to B -
over land, through the air or on the sea?

You can catch a **trolley** / **taxi**
if you have the fare

Or you can **ride** / **walk** from here to there.

How do you get from A to B

-- over land, through the air or on the sea?

You can fly a **rocket** / **space ship**
if you have been taught

But first you have to train
to be an **astronaut** / **asteroid**

How do you get from A to B
