

UNIT 6: PEOPLE AND WORK 3

1. Match the reported statements with the corresponding direct statements:

" I've always been interested in space exploration and science."	Karina told me to put on my reflective armband.
" My spacesuit provides water for me to drink."	Karina asked me if my mother usually got up early.
" Does your mother usually get up early?"	Karina told me that astronauts couldn't do experiments in space because there wasn't any gravity.
" I often do experiments in space."	Karina asked me to clean the room before I left .
" How are you preparing for the space journey?"	Karina says that she's always been interested in space exploration.
" Put on your reflective armband."	Karina asked how I was preparing for the space journey.
" Astronauts can't do experiments in space because there isn't any gravity."	Karina says that her spacesuit provides water for her to drink.
" Clean the room before you leave."	Karina said that she often did experiments in space.

Write the reported statements under the direct statements:

" I've always been interested in space exploration and science."

" I often do experiments in space."

" Does your mother usually get up early?"

" I often do experiments in space."

" Put on your reflective armband."

" How are you preparing for the space journey?"
