- **Decide if the statements from 17 to 20 are True or False.**
- **Choose the correct answers (A, B, C or D) for questions 21 and 22.**

Environmental pollution is one of the impacts of human activities on the earth. It is also one of the biggest problems of the world today. The environmental pollution is the cause of some diseases that most people do not know about. There are four types of pollution, namely, air pollution, soil pollution, water pollution and noise pollution.

Most of the air pollution results from the burning of fossil fuels, motor vehicles, factories, aircraft and rockets. This can cause acid rain which damages water, soil, and vegetation. Air pollution also contributes to the greenhouse effect which can lead to a series of environmental problems such as global warming, polar ice melting, rise of sea levels and loss of land.

Soil pollution is a result of dumping plastic or other inorganic waste in the ground and the overuse of chemical fertilizers in agriculture. The long-term effects of soil pollution are contaminated vegetation and the decrease of soil fertility.

Water pollution is a result of dumping pollutants such as detergents, pesticides, oil, and other chemicals in rivers, which makes the water unclean or contaminated. Rubbish blockages in rivers can also cause pollution. The effects of water pollution. It includes the destruction of ecosystem of rivers, lakes and the pollution of groundwater, surface water and seawater.

Noise pollution is caused by loud and annoying sounds of motor vehicles, railway, aircraft and jet engines, factory machinery and musical instruments. It can cause stress and psychological and health problems for humans such as increased heart rate and hearing damage.

Environmental pollution is becoming an increasingly serious problem or threat that needs to be taken care of as soon as possible, not only for the sake of the environment, but also for the people that live in it.

17. Environmental pollution results from natural disasters.

18. The greenhouse effect is a result of water pollution.

19. Water pollutants are things such as detergents, pesticides, oil, other chemicals and rubbish blockages in rivers that make water contaminated.

20. Noise pollution can increase heart rate and damage hearing.

21. Which of the followings best expresses the main idea of the passage?

A. Natural Resource Depletion. **B.** The Long-term Damage of Soil.

C. Environmental Pollution. **D.** The Destruction of Ecosystem.

22. The word **"It"** in line 17 is closest in meaning to:

A. Air pollution **B.** Noise pollution **C.** Water pollution **D.** Soil pollution

LIVEWORKSHEETS

IV. Choose the word that best fits the blank space in each sentence.

Is there life on Mars? Many people have wondered about this question. Some writers of science-fiction think of people from Mars **(17)**_____ little green creatures. Others imagine 'Martians' as monsters with many eyes.

In studying this planet, astronomers have found that life may be possible on Mars. The first indication of this is that Mars has seasons, just like Earth. In other words, Earth's seasons, such as spring or summer, occur on Mars too. Because these seasons exist, it **(18)**_____ for vegetation and other higher life forms to be found on Mars.

Astronomers also think that perhaps a small **(19)**_____ of water vapor could be found on Mars. In 1887, an Italian astronomer, Giovanni Schiaparelli, discovered markings on Mars' surface. These markings looked like canals. This finding led astronomers to believe that since water exists on Mars, life forms could exist as well.

However, there are **(20)**_____ who feel that life on mars is not possible. This is because there is little or no **(21)**_____ of oxygen on the planet. In 1965, the Mariner IV capsule managed to take photographs of the planet. It discovered that the only forms of life found are vegetation like fungi and mosses. **(22)**_____, people remain fascinated by the idea that there could one day be life on Mars.

23.	**A.** like	**B.** to be	**C.** as being	**D.** as
24.	**A.** can be famous	**B.** may be possible	**C.** will be suitable	**D.** may be the reason
