Q3 AT Molar Mass

Name_____Date_____Period_____

Write the formula for each compound (you thought you were done with this) and calculate the Molar Mass of each of the compounds listed below to the hundredths place. All numerical answers MUST HAVE THE CORRECT UNITS!

	Name	Formula	Molar Mass
1	cobalt(V) chloride		
2	tetraphosphorus trioxide		
3	calcium selenide		
4	iron(IV) sulfate		
5	aluminum fluoride		
6	silicon trioxide		
7	copper(III) carbonate		
8	zinc phosphate		
9	lead(I) dichromate		
10	carbon hexachloride
