

Instructions: Convert the mixed fractions below to improper fractions. One has been done for you.

Step 1: Multiply the whole number by the denominator.

Step 2: Add the answer to the numerator.

Step 3: Write the total over the same denominator.

1. $4\frac{1}{2}$

$$4 \times 2 = 8$$

$$8 + 1 = 9$$

$$\frac{9}{2}$$

2. $6\frac{4}{5}$

3. $2\frac{7}{9}$

4. $13\frac{1}{2}$

5. $8\frac{2}{4}$

6. $5\frac{1}{3}$

7. $6\frac{5}{8}$

8. $12\frac{1}{2}$

9. $10\frac{5}{7}$

10. $2\frac{9}{10}$
