

Division Cycle

1) What number multiplied by 5 equals 8 or near 8? →

2) $5 \times \underline{\quad} = \underline{\quad}$ →

3) $8 - \underline{\quad} = \underline{\quad}$ →

7) $\underline{\quad} - \underline{\quad} = \underline{\quad}$ →

5) What number multiplied by 5 is $\underline{\quad}$ or near $\underline{\quad}$? →

9) What number multiplied by 5 is $\underline{\quad}$ or near $\underline{\quad}$? →

4) Bring down the 7 →

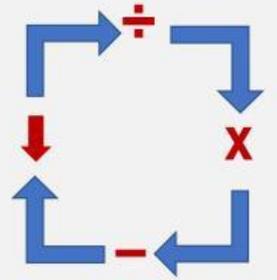

6) $5 \times \underline{\quad} = \underline{\quad}$ →

8) Bring down the ones →

10. $5 \times \underline{\quad} = \underline{\quad}$ →

11. $\underline{\quad} - \underline{\quad} = \underline{\quad}$ →

5 **876**

$\underline{\quad} \div \underline{\quad} = \underline{\quad}$
