Cell phone is a modern communication device which connects one to the others by voice, written message and data. However, this device cannot work until the SIM card is inserted. When inserting the SIM Card to cell phone, make sure that the cell phone has been switched off and follow the direction bellow:
First of all, press the locking catch and slide the cover then lift it off the phone. After that, push two catches in the opposite directions and remove the battery. Next, slide the SIM card carefully into the slot and make sure that the golden connect arson are facing to the connector of the phone. Then, put the battery and align it until snaps into its place.

LIVEWORKSHEETS
