Joseph,

As you know, we are in the process of negotiating an agreement with Burton Farms to sell some of their dairy products at all our supermarket locations in the Midwest. Depending on how well the products sell, we may distribute them later on to our other stores across the country.

In connection with this, I'd like your team to complete a presentation in time for a meeting we are having with Burton Farms on the 11th of next month. You will need to do some research on their brand positioning and target market. Next, you'll have to come up with ideas for arranging the products on our shelves and promoting them to our customers. I've attached the Burton Farms product list and highlighted the items we plan to sell. I'll be in the office all week if you want to discuss this further.

Thanks!
