Teach your class to make something with paper.

1 Start

a Find something you want to make.

b Find out how to make it.

c Make an example to show your classmates.

2 Prepare

Think about how to explain the instructions.

How many steps are there?

What materials do they need?

What order do they need to do the steps?

3 Practice

Practice explaining how to make your paper form.

You need ... First, ... Then, ... After that, ... Finally, ...

4 Present
