

Teach your class to make something with paper.

 **1 Start**

- a Find something you want to make.
- b Find out how to make it.
- c Make an example to show your classmates.

 **2 Prepare**

Think about how to explain the instructions.

How many steps are there?

What materials do they need?

What order do they need to do the steps?

 **3 Practice**

Practice explaining how to make your paper form.

You need ...      First, ...      Then, ...      After that, ...      Finally, ...

 **4 Present**
