## II. Finding the answer!

1. Complete the table by convert the unit

| hm | m | dm | mm |
|---|---|---|---|
| 4 | | | |
| | 50 | | |
| | | 7000 | |
| | | | 30000000 |

2. 2000 ml + 100 dl = liter

3. Write the kind of angles include the value of the angles (.....°)

4. What is the similarity between cube and cuboid?

5. What is the meaning of line symmetry?
