

Name: _____

Division with Remainders

1) Choose the correct word for what is underlined.

$$20 \div 5 = \underline{4}$$

$$20 \div 5 = 4$$

A) Divisor B) Quotient

A) Divide B) Times

$$22 \div 5 = 4 \text{ r } \underline{2}$$

$$\underline{20} \div 5 = 4$$

A) Equals B) Remainder

A) Dividend B) Divisor

2) Choose True or False.

$21 \div 5 = 4 \text{ r } 1$ 4 is the quotient True False

$21 \div 5 = 4 \text{ r } 1$ 1 is the remainder True False

$21 \div 5 = 4 \text{ r } 1$ 21 is the divisor True False

3) Choose the correct answer.

Bob says $23 \div 5 = 4 \text{ r } 1$.

Is he correct?

A) Yes

B) No

A nurse puts 29 books on a shelf.
Each shelf holds 7 books.
How many shelves does the nurse fill?
How many books are leftover?

- A) The nurse fills 3 shelves, and 4 books are leftover.
- B) The nurse fills 4 shelves, and 1 book is leftover.
- C) The nurse fills 4 shelves, and 3 books are leftover.

Bob has 38 bananas to put in 9 boxes.
He must put the same number of bananas in each box.
How many bananas are there in each box and how many are leftover?

- A) There are 3 bananas in each box and 5 leftover.
- B) There are 4 bananas in each box and 1 leftover.
- C) There are 4 bananas in each box and 2 leftover.

4) Write an equation and word answer for the story.

Bob has 28 toys to put in 5 rows.
He must put the same number of toys in each row.
How many toys are there in each row and how many are leftover?

Equation: $\underline{\hspace{1cm}} \div \underline{\hspace{1cm}} = \underline{\hspace{1cm}} \text{ r } \underline{\hspace{1cm}}$

Word answer:
