Hi Ben,

This postcard shows photos of an exciting, modern building in my city in the United Arab Emirates. It's called Burj Al Arab and it's a luxury hotel. It's on a small island in the sea. Visitors can go across a bridge to Burj Al Arab. The shape of the hotel is like the big, white sail of a ship.

Burj Al Arab is a very tall building. It's 321 metres tall and it's got 56 floors. Luckily, there's a lift! Three floors are underground in the basement. Helicopters can land on a helipad next to the roof.

It isn't the tallest hotel in the world, but there aren't many taller hotels!

Would you like to go to Burj Al Arab one day?

Best wishes,

Hassan
