Section 3: Reading Comprehension (15 minutes)

Read the passage and answer the questions.

Baking a Cake

Baking a cake can be a fun and rewarding experience. To begin, gather all the necessary ingredients such as flour, sugar, eggs, and butter.

Preheat the oven to the specified temperature, usually indicated in the recipe.

Next, mix the dry ingredients together in one bowl and the wet ingredients in another. Slowly add the wet ingredients to the dry ones, stirring gently until well combined.

Then, pour the batter into a greased cake pan and place it in the oven. Bake for the recommended time, checking occasionally to ensure it doesn't burn. Once the cake is golden brown and a toothpick inserted into the center comes out clean, remove it from the oven and let it cool.

Finally, decorate the cake with frosting or icing as desired. Now, it's ready to be enjoyed!
