BMX means Bicycle Motocross. It is a type of racing on a bike, but you don't do it on roads. You do it on special race tracks where there are jumps. You are standing up on your bike now and jumping. It's awesome. Everyone in Ann's family loves sports. Her two brothers play football all the time. She loves doing athletics. She can run 100 metres in thirteen seconds, but she prefers BMX.

She falls off sometimes, but she doesn't hurt herself. BMX riders always wear special gear for protection, like elbow and knee pads. A helmet is always important too. She has got two but the red helmet is her favorite. She usually wins her races when she wears it.

It isn't difficult to ride a BMX ride. They are like kids' bikes, but you need strength and courage to take part in a race and win. Ann has got four brothers and she is the youngest in her family. She is very brave and she hate losing.

BMX racing is an Olympic sport now, so her ambition is to compete in the Olympic Games and she will be on television. In her dream, she is standing on top of the podium and someone is putting a gold medal around her neck. It's a wonderful feeling.

Hi Mai,

How are you? Thanks for your email. I think sports at school in Viet Nam are different from sports in Canada.

At school we do lots of PE (Physical Education) and in winter we play ice hockey – it's the national sport of Canada.

I love going really fast on the ice! At our schoolgirls and boys play rugby too. I don't like it because I am very bad at throwing and catching the ball, but I like watching our school rugby team when they play. In the summer, we play table tennis and do athletics. I'm OK at the table tennis and I'm really good at athletics because I can run fast. I run the 100m, 200m.

There are lots of after-school sports clubs at my school: football, volleyball, basketball, and judo. I do judo on Tuesday and Thursday evenings.

Sometimes in the summer I go swimming with my friends at the weekend and in winter we often go ice skating. I love ice skating – it's great.
