

3  **3.7** Choose the correct option to complete the extracts from the dialogues. Then listen again and check.

**Dialogue 1**

A: Do you <sup>1</sup> have / feel a temperature?  
B: Yes, it's thirty-nine degrees.  
A: Well, I'm afraid your hand is infected. I'm going to give you a prescription. You need to take <sup>2</sup>stitches / antibiotics . You also need to put a fresh <sup>3</sup>ice / bandage on it every day.

**Dialogue 2**

A: Okay, let me see. Hm, it's a nasty cut. I think you need a few <sup>4</sup>bruises / stitches .  
B: Stitches?! Oh no, I think I'm going to <sup>5</sup>faint / bleed.  
A: Okay, calm down. Take some deep breaths. It's not going to <sup>6</sup>hurt / twist.

**Dialogue 3**

A: Okay, I need to check your pulse and your <sup>7</sup>blood pressure / injection. Can you roll up your sleeve, please?  
B: Do you think I'm going to be okay? Do I need an <sup>8</sup>infection / X-ray ?  
A: No, your blood pressure is fine and your <sup>9</sup>pulse / pain is normal.

**Dialogue 4**

A: Now, are you allergic to anything?  
B: Yes, I'm allergic to needles. Please get that needle away from me!  
A: I'm not going to give you an <sup>10</sup>injection / operation. But we do need to bring the <sup>11</sup>bleeding / swelling down. You need to take <sup>12</sup>painkillers / antibiotics to ease the pain and then you'll need to put some <sup>13</sup>ice / plaster on your ankle when you get home.
