QUESTION 4

Learning to manage time effectively is a valuable skill. We have to prioritise tasks because it helps to ensure that important responsibilities are completed on time. Be patient in every situation is also important. Creating a schedule or to-do list can help organise daily activities. Last but not least, we can break the larger task into smaller tasks to make our time manageable.

QUESTION 5

Classroom environment can affect students positively or negatively. For example, if classmates are sleeping or talking during classes, that environment can make it difficult for students to focus. A noisy, dirty, or distracting environment can have a similar impact. Some roommates never help clean the apartment. However, an environment that is clean and has no noises will make it much easier to focus on homework. It is important to recognize the impact that the environment can have on students.

QUESTION 6

It is dangerous to keep old buildings. According to some engineers, every building has a lifetime. Old goods also become more expensive. In addition, if the city is in an earthquake active area, the problems that old buildings create will become worse because those buildings will not resist an earthquake. Some people say that old buildings can be used as tourist places and people enjoy visiting a historic location. It is clear that old buildings are not very safe.
