

## RECYCLE YOUR OLD CLOTHES

What do you do with your old clothes? Do you throw them away? Don't do that! Other people can use them! In fact, more than 70% of all people in the world wear second-hand clothes. Right now, millions of people <sup>(a)</sup> are going (go) to markets to get their clothes. They <sup>(b)</sup> aren't buying (not buy) new clothes in shops.

As you can see, I <sup>(c)</sup> (not put) my old clothes in the rubbish. I <sup>(d)</sup> (do) something useful with them. There's a great app called reGAIN. My sister and I <sup>(e)</sup> (use) it. It's easy. You download the app, pack the clothes in a box and send the box for free. They collect all the clothes together and then send them all over the world.

It <sup>(f)</sup> (become) a popular way to help others. But you get something too – using the app you can get discounts at popular shops. Everyone's a winner!
