

**There are four people talking various viewpoints on education and learning. Decide whose opinion matches the statements below. Read the texts and complete the questions below.**

**Isabelle**

Fast fashion is the enemy of our planet! The amount of waste it generates is shocking. People need to be more conscious of the clothes they buy and wear. Sustainable clothing made from recycled materials is the way forward. We need a cultural shift towards responsible fashion choices!"

**Omar**

Virtual reality is changing the game! Imagine exploring historical landmarks or learning a new language through immersive experiences. VR can make education so much more engaging and interactive. Textbooks and lectures feel outdated in comparison. The future of learning is definitely virtual!

**Noah**

The best way to learn about a culture is to experience it firsthand! Tourist traps and fancy resorts won't give you the real feel. Immersing yourself in local communities, trying new foods, and navigating unfamiliar streets - that's how you truly learn about a place. Guidebooks can only take you so far."

**Elena**

There's something irreplaceable about the museum experience. Standing in front of a historical artifact or a masterpiece of art evokes a sense of awe and connection to the past. Interactive exhibits are great, but there's a magic to traditional museums that digital experiences just can't replicate.

1. Sustainability is key!
2. VR is the future of learning!
3. Authentic experiences are the best teachers.
4. Museums offer an irreplaceable experience.
5. Flexible learning is essential for busy schedules.
