

Üleminekuga liitmine 7 +

Seitsmele liidan kõigepealt 3, nii saan 10 täis.
Siis lisan selle, mis üle jääb.

$$7 + 5 = 7 + 3 + 2 = 12$$

1. Õpi jagama arve nii, et esimene osa on 3.

2. Arvuta! Liida kõigepealt nii palju, et saaksid 10 täis. Siis lisa ülejäänud.

$$7 + 7 = 7 + 3 + \dots = \dots$$

$$7 + 5 = 7 + 3 + \dots = \dots$$

$$7 + 4 = 7 + 3 + \dots = \dots$$

$$7 + 6 = 7 + \dots + \dots = \dots$$

$$7 + 9 = 7 + \dots + \dots = \dots$$

$$7 + 8 = 7 + \dots + \dots = \dots$$
