

# Environmental Crisis Impacts

## 1 Can You Fill in the Blanks?

deforestation, biodiversity loss, climate change, air pollution, plastic pollution

- 1 \_\_\_\_\_ (1) is a serious issue that affects our environment and wildlife.
- 2 \_\_\_\_\_ (2) is harming marine animals and polluting our oceans.
- 3 \_\_\_\_\_ (3) is causing extreme weather patterns all over the world.
- 4 \_\_\_\_\_ (4) from cars and factories is damaging our health.
- 5 \_\_\_\_\_ (5) is a result of habitat destruction and human activity.

## 2 Let's Dive into a Dialogue!

Maggie Have you seen the news about deforestation and plastic pollution? It's so heartbreakingly

Liam I know, it's terrible. And don't get me started on climate change and air pollution.

Maggie It makes me worry about our planet and what kind of world we're leaving for future generations.

Liam Me too. The biodiversity loss is also a big concern. We need to do something before it's too late.

Maggie Yes, we really need to start making changes in our daily lives to help protect the environment. Every small action counts.

Liam Absolutely. From reducing our use of single-use plastics to supporting reforestation efforts, we can all make a difference.

Maggie And let's not forget about advocating for government policies that prioritize environmental protection. We need to work together to create a more sustainable future.

## 3 Get Creative with Your Writing!

**Writing tasks:**

- 1 Write a social media post discussing the impact of deforestation on wildlife and ecosystems. Use hashtags to raise awareness about the issue.

**twee**

- 2 Create a blog post outlining ways individuals can reduce plastic pollution in their daily lives. Include personal anecdotes or experiences to make your writing engaging.
- 3 Write an email to a local government official expressing your concerns about the effects of air pollution on public health. Offer suggestions for policies that could help improve air quality in your community.

**Target Vocabulary:**

deforestation, plastic pollution, climate change, air pollution, biodiversity loss

**twee**
