LE FRAZIONI DECIMALI

Osserva l'**unità**, cioè **1**, rappresentata con un rettangolo diviso in 10 parti uguali.

Ogni parte è $\frac{1}{10}$

A. Colora la parte indicata dalla frazione e scrivi la frazione a parole.

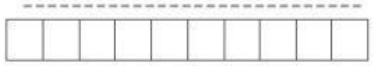

$\frac{1}{10}$ *un decimo*

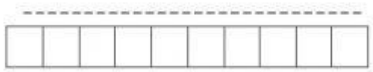

$\frac{2}{10}$ ----------

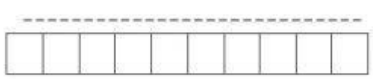

$\frac{3}{10}$ ----------

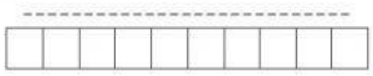

$\frac{4}{10}$ ----------

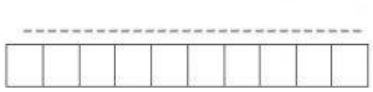

$\frac{5}{10}$ ----------

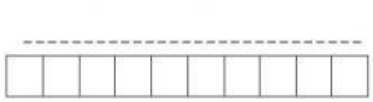

$\frac{6}{10}$ ----------

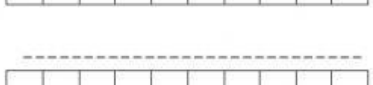

$\frac{7}{10}$ ----------

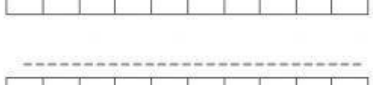

$\frac{8}{10}$ ----------

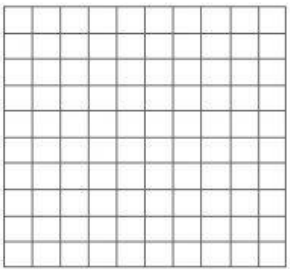

$\frac{9}{10}$ ----------

$\frac{10}{10}$ ----------

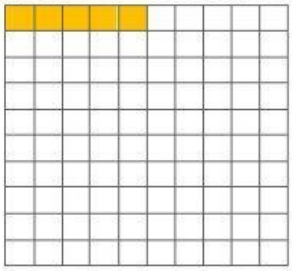

Osserva l'**unità**, cioè **1**, rappresentata con un quadrato diviso in 100 parti uguali.

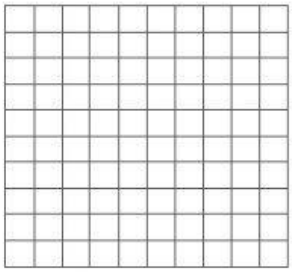

Ogni parte è $\frac{1}{100}$

B. Colora la parte indicata dalla frazione e scrivila a parole.

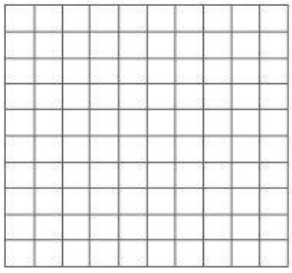

$\frac{5}{100}$

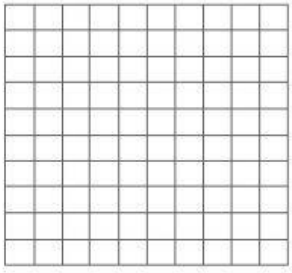

$\frac{20}{100}$

$\frac{47}{100}$

$\frac{80}{100}$

☺ Impara.
La frazione che al denominatore ha **10, 100, 1.000** si chiama **frazione decimale.**
