MAD WOMAN by Taylor Swift

What did you _____ I'd say to that?
Does a _____ sting when fighting back?
They strike to _____ and you know I will
You know I will
What do you _____ on your drive home?
Do you see my face in the neighbour's _____?
Does she _____?
Or does she mouth, "Fuck you forever"?

Every time you call me crazy
I get more crazy
What about that?
And when you say I seem angry
I get more angry

And there's nothing like a mad woman
What a _____ she went mad
No one likes a mad woman
You made her like that
And you'll poke that bear 'til her _____ come out
And you find something to _____ your noose around
And there's nothing like a mad woman

Now I breathe _____ each time I talk
My cannons all firing at your _____
They say, "Move on", but you know, I won't
And women like hunting _____, too
Doing your dirtiest work for you
It's obvious that wanting me _____
Has really brought you two _____

Every time you call me crazy
I get more crazy
What about that?
And when you say I seem angry
I get more angry

And there's nothing like a mad woman
What a _____ she went mad
No one likes a mad woman
You made her like that
And you'll poke that bear 'til her _____ come out
And you find something to _____ your noose around
And there's nothing like a mad woman

I'm taking my time
Taking my time
'Cause you took _____ from me
Watching you climb
Watching you climb
Over _____ like me
The master of spin
Has a couple side flings
Good _____ always know
She should be mad
Should be scathing like me

But no one likes a mad woman
What a _____ she went mad
You made her like that

"Mad Woman" is a song by the American singer-songwriter Taylor Swift from her eighth studio album, *Folklore* (2020) which confronts gaslighting and the sexist taboo regarding women's anger.
