LET'S LEARN ENGLISH

OBJECTIVES CLASS: KNOWING ABOUT COMPUTER'S PART

Watch this video below , then discuss about the video on your class ! (Tonton video di bawah ini, lalu diskusikan tentang video tersebut di kelasmu!)

TASK I

Find 10 words related to computer items the words will appear either vertically or horizontally within the puzzle (Temukan 10 kata yang berhubungan dengan bagian-bagian komputer)

s m m l c s p e a k e r h
c o m p u t e r h l h p l
o k w t e k c p u n u c m
l a p t o p i w h p m o i
m o u w r i n h c e u l c
a o h m w m o n i t o r r
n i u p r i n t e r h m o
a r r s b p e w k m k c p
h r r m e n w b e n n o h
u k o e i s m i t b a o o
b b o p k l r e m p c p n
r a n k b t a t i h d a e
e m o t h e r b o a r d m

10 words :

computer	motherboard
cpu	webcam
monitor	laptop
mouse	microphone
printer	speaker

Name: _____

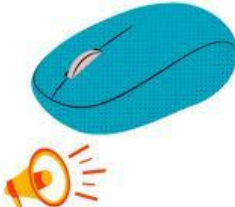

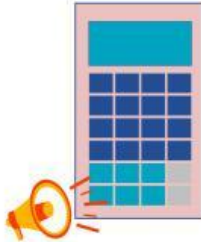

Date: _____

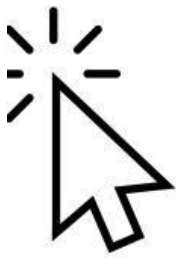

TASK 2

Technological devices

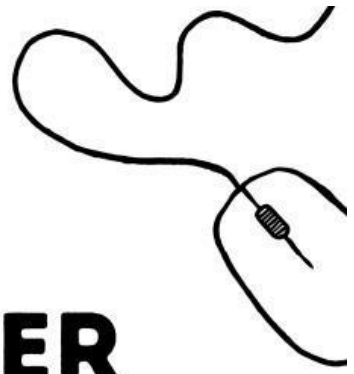

Look at the pictures and listen to the audio then choose the correct words

(Lihatlah gambar dan dengarkan audionya lalu pilihlah kata yang benar)

	Smartwatch Camera		Headphones Smartphone
	Laptop Tablet		Webcam Speakers
	Computer Speaker		Keyboard Mouse
	Desktop Laptop		Earbuds Microphone
	Calculator Calendar		Camera Microphone

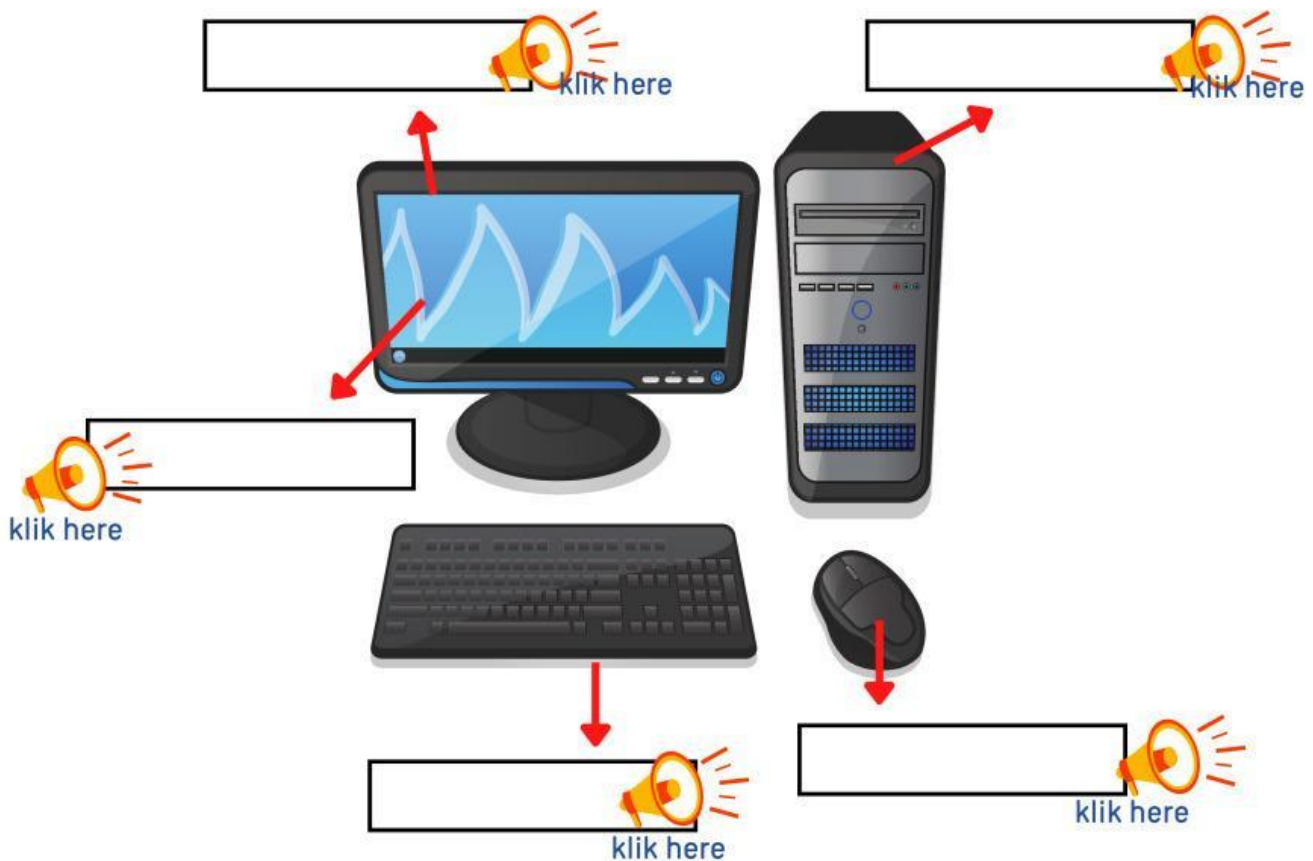

TASK 3

PARTS OF COMPUTER

Drop out the words and drag them in the correct box to label the parts of the computer.
(Keluarkan kata-kata tersebut dan seret ke dalam kotak yang benar untuk memberi label pada bagian komputer).

keyboard

CPU

mouse

monitor

screen

TASK 4

Choose the correct answers based on the text below but don't forget to listen the audio first !
(Pilihlah jawaban yang benar berdasarkan teks di bawah ini tetapi jangan lupa untuk mendengarkan audionya terlebih dahulu!)

A computer consists of several essential components that work together to perform various tasks. The central processing unit (CPU) acts as the brain, executing instructions and performing calculations. The memory stores data and instructions for quick access. The input devices, such as keyboards and mice, allow users to provide commands, while output devices like monitors and printers display or produce the results.

1. Which component of a computer acts as the brain?

- A. Memory
- B. Central Processing Unit (CPU)
- C. Input devices
- D. Output devices

2. What do output devices in a computer do?

- A. Store data and Instructions
- B. Execute Instructions
- C. Display or procedure result
- D. Provide commands

TASK 3

3. What is the function of memory in a computer?

- A. Displaying result**
- B. Executing instructions**
- C. Storing data and instructions**
- D. providing command**

4. Which component of a computer stores data and instructions for quick access?

- A. Memory**
- B. Central Processing Unit (CPU)**
- C. Input devices**
- D. Output devices**

5. What do output devices in a computer do?

- A. Store data and Instructions**
- B. Execute Instructions**
- C. Display or procedure result**
- D. Provide commands**
