

UNIT 4 - Matter

PROPERTIES OF MATERIALS

Different materials have different properties.

PHYSICAL PROPERTIES, SOLUBILITY AND THERMAL CONDUCTIVITY.

PROPERTIES OF MATERIALS

Join the property with the characteristic of the material.

Difficult to scratch or cut

Hard

Go back to the original shape

Soft

Easy to scratch or cut

Fragile

Difficult to break

Tough

Easy to break

Plastic

Easy to bend

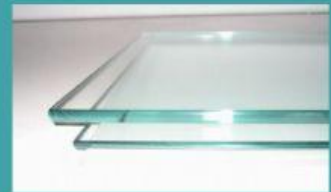

Elastic

What is the material?

Decide if the materials are soluble or insoluble.

Soluble

Insoluble

Alphabet soup.
