Favourite places

Esteban

The most beautiful place to visit in my city is the Alhambra castle. There has been a castle there since the 9th century, although it's only since the 13th century that kings have lived there. The best time to visit is first thing in the morning or in the late evening, as the castle gets very busy with tour groups during the day. My favourite part of the castle is the gardens, as they have water running through all of them.

George

My favourite place in my town is the sports centre. I go there every weekend to play tennis with my cousin. He's older than me and a really good player, but sometimes I manage to beat him! The sports centre is really big and it has two swimming pools. In the summer when it's hot I like to use the outdoor pool, but my cousin prefers the indoor pool as it's bigger.

Michele

I think that the best place to visit near where I live is the local museum. It has paintings from the 15th century that are very beautiful and sculptures, too. Most tourists want to take photos of the tower because the city is famous for it, and many of them visit the cathedral that is next to it in the square. Not many tourists go to the museum, so it's always peaceful there.

Part 3

For each question, choose the correct answer.

Rebecca Miles – wildlife presenter

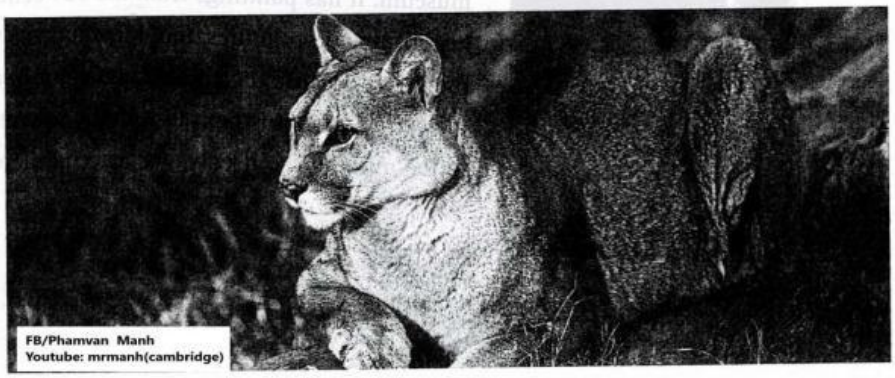

Rebecca Miles has always loved animals. When she was a child, she liked watching documentaries, TV programmes about real people and events. She also enjoyed going to the local zoo with her grandparents. Her father was an environmentalist, someone who works to protect the natural world, and she and her mother often went on trips with him, travelling to Africa and other parts of the world.

Rebecca studied zoology at university and began her career at a wildlife centre in Zambia. She worked with chimpanzees and studied how they live. She was also interested in learning more about big cats like mountain lions. She made her first TV programme when she was 27. It was a documentary about tigers.

While she was in Asia, filming the documentary, she met her future husband, Ray. He was one of the cameramen on the programme. They quickly realized that they shared the same interests and cared about animals in danger. Now Rebecca and Ray work together on many different projects.

Apart from Zambia, Rebecca has travelled and worked all over Africa and Asia, and she and Ray are now planning to take their very first trip to South America to study mountain lions in the Andes. They would like to show where the mountain lions live and what they eat. They're interested in giving people information about the mountain lions and how to protect them.

Rebecca would like to write a book about her work and her life one day. She wants to make people think about the world they live in and all the amazing animals that are in danger. She'd like to show us that we can help even if we never travel to the places where those animals live.
