

NÚMEROS AMIGABLES

PARA RESTAR

Usa el método de Tere (tal como se mostró en el vídeo) para realizar las siguientes restas:

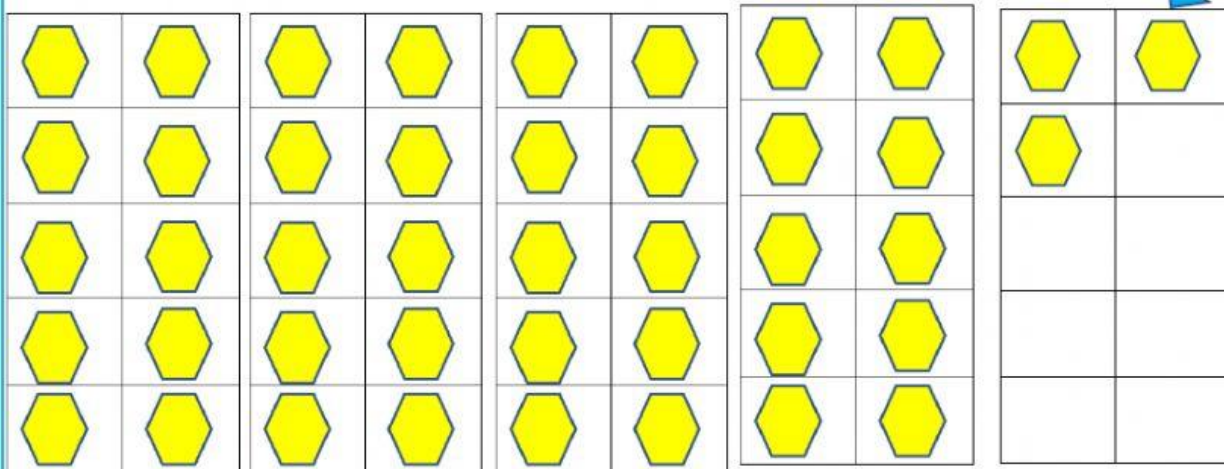

$$24 - 9 = \boxed{} - \boxed{} = \boxed{}$$

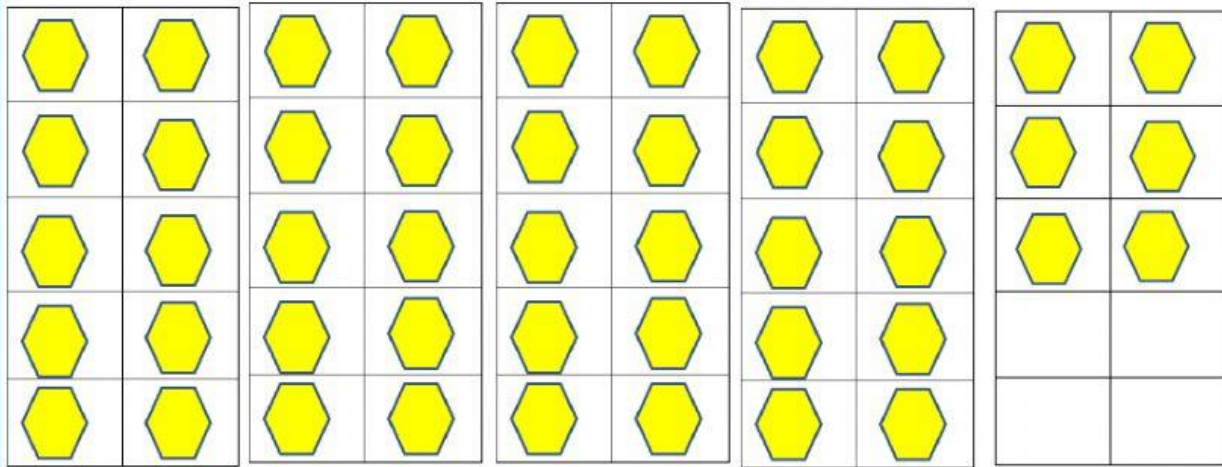

1. Mueve las tachas rojas a las fichas amarillas para dejar un número amigable (decenas cerradas).

Realiza este paso en cada ejercicio.

$$43 - 7 = \boxed{} - \boxed{} = \boxed{}$$

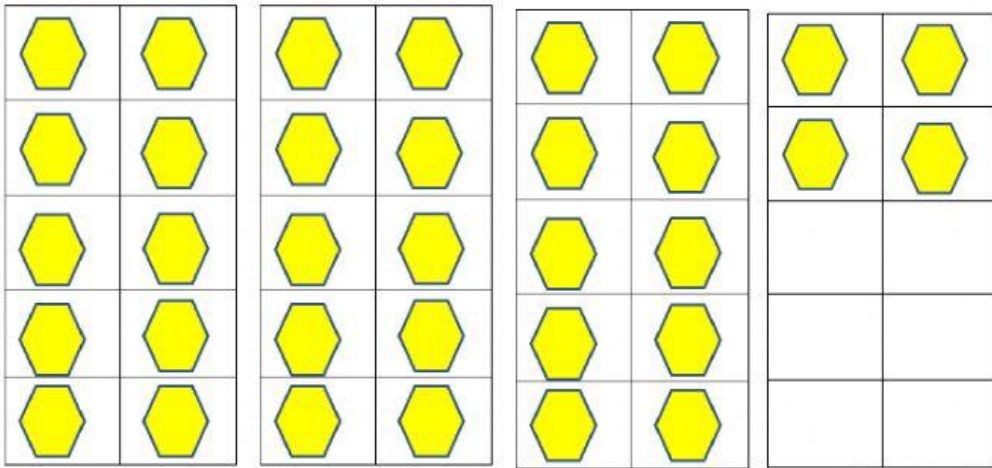

$$46 - 8 = \square - \square = \square$$

XXXXXXXXXX

$$34 - 9 = \square - \square = \square$$

XXXXXX
