Burj Khalifa is 'A Vertical City' that defines the can-do spirit of Dubai

The world's tallest building, Burj Khalifa is a global icon that pushes the frontiers in design, architecture, and construction.

A headlining accomplishment by Emaar Properties, Burj Khalifa underlines the can-do spirit of Dubai. Described as both a 'Vertical City' and 'A Living Wonder,' Burj Khalifa rises gracefully from the desert, honouring the city with its extraordinary union of art, engineering, and meticulous craftsmanship.

At 2,716.5 ft, the 200 plus storey Burj Khalifa has 160 habitable levels, more than any building in the world. With a total built-up area of 5.67 million sq ft, Burj Khalifa features 1.85 million sq ft of residential space and over 300,000 sq ft of prime office space. That is in addition to the area occupied by the Armani Hotel Dubai and the Armani Residences.

With 900 residences including studios and one, two, three, and four-bedroom apartments, The Residence in Burj Khalifa is designed for the connoisseur.

Offering 160 guest rooms and suites, restaurants and a spa, Armani Hotel Dubai brings to life the 'Stay with Armani' promise, an exceptional lifestyle experience defined by the highest standards of aesthetics and service excellence.

The tower offers luxurious recreational and leisure facilities including four swimming pools, excluding the pool in the hotel, lounges for home owners and office owners, health and wellness facilities, a public observation deck and atmosphere, the world's highest restaurant on Level 122.

The observation deck on Level 124, At the Top, Burj Khalifa, is a must-see attraction and offers breath-taking views of the city and the surrounding emirates.

Connected to the tower are The Offices, a 12-storey annex of prime office space and The Club, a four-storey health and wellness centre.

Over 1,000 pieces of art by prominent international and Middle Eastern artists adorn the interiors of Burj Khalifa and Mohammed Bin Rashid Boulevard.

7. How large offices spaces in Burj Khalifa are available?

Kiluan Bay

Kiluan Bay is a tourist attraction which is located in Kiluan village, Kelumbayan sub district, Tanggamus district, South Lampung. Kiluan Bay is about 80 kilometers from Bandar Lampung city center or three to four hour if you go there by car. This is the place of migration for a bunch of mouth bottles dolphins.

This bay has stunning natural landscape and coast. The sand beach which is spreading out there is white and gentle. It is quite harmonious with the blue color of the sea. Besides swimming and snorkeling, in this bay you can also see the attractions from a group of dolphins. The attractions of a group of dolphins can usually be seen around 06:00 to 10:00 in the morning. However, to watch the attractions you must first rent a small boat or Jukung.

By using the small boat or Jukung, you will be brought Into the middle of the see where the dolphins gather. It takes around twenty five minutes from the coast. From close distance, you can see a group of dolphins which swim and even jump on the side of the coming boat as if they welcomed your coming.

9. It can be inferred from the second paragraph that....
   A. dolphins can only be seen in about four hours.
   B. jukung is one of the Dolphin's species.
   C. snorkeling can only be done in the morning.
   D. the bay is naturally incredible for its attraction.
   E. small boat can be used toget into Kiluan Bay.

Kapoposang

Kapoposang is one of the largest of the Spermonde Islands, around 70 km northwest of Makassar, South Sulawesi. Kapoposang covers an area of around 50,000 hectares and is inhabited by around 100 families. Several other islands, both inhabited and uninhabited, lie near Kapoposang. The larger ones include Papandangan, Kondongbali, Suranti and Tambakulu.

Kapoposang and the nearby islands were declared a Nature Tourism Park by the Department of Forestry in 1999. Diving has been an important activity at Kapoposang since the mid 1990s. There were so few local divers at the time, and because of the distance from other well-known diving areas in Indonesia, Kapoposang has basically remained a secret.

The best time to visit Kapoposang is between April and November, when the seas are calm, the weather favorable, and the wind less fierce than in the other months. The trip takes two hours by speedboat; the ocean breezes help to cool your skin in the hot morning sun. As you approach Pulau Kapoposang, you see the deep blue water, which suddenly meets an expanse of coral reefs between extensive shallows with white sands in the seabed. Sea grass also grows lushly near the shore. The sea bed at Kapoposang has a unique composition; near the island are some quite shallow contours, and then suddenly steep underwater cliffs leading to seemingly endless depths. The water is very clear; you can expect underwater visibility of over 15 meters – ideal conditions for divers.

10. The text is about ....
    A. Kapoposang and the surrounding islands
    B. Kapoposang as a diving spot.
    C. Kapoposang as a very popular tourist spot
    D. Kapoposang as a secret area
    E. Kapoposang and the weather

This is my new bicycle which I bought two days ago. I like it and I am proud to have it because I bought it with my own money. I earned it with great efforts.

Before I had a bicycle, I went to school with my father by motorcycle. He dropped me to school before he went to work. When I saw my friends going to school by bicycle, I felt evious of them. They were riding their bicycle while chitchatting and enjoying the serenity of villages and rice fields. Then, I asked for a bicycle to my parents, but they didn't have much money. They spent moner money to pay for my brother's tuitions to study at university. I realised that my brother needed it.

Then, I had an idea to work during my holiday, but my parents disagreed. My rother gave me an idea to make goody bag and then sold them online. I did make several and promote them. Luckily, a person contacted me to order 500 goody bags for her wedding's souvenirs. I did it during my holiday. My mother and brother also helped me. My customer was satisfied with the bags and I was so glad.

Later, I asked for my parents permission to use the money to buy a bicycle. They agreed. Then, my father accompanied me to a bicycle shop. Now, I ride my bicycle to school, along with my friends.

In the middle of a beautiful city, there was a museum laid with beautiful marble tiles and a huge marble statue as a part of the display. Many people from all over the world visited the museum every day and admired the beautifully crafted statue.

One night, the marble tiles started talking to the marble statue. Marble Tile said, "Hey, Statue! Don't you think that is not just fair that everybody from all over the world come all the way here to admire you while ignoring and stepping on me."

Marble Statue answered, "My dear brother, Marble Tile, don't you remember we are actually from the same cave."

"Yes, I do! That is why I feel it is even more unfair. Both of us were born from the same cave and yet the world treats us so differently now. This is so unfair!", Marble Tile replied.

Marble Statue said, "Yes you are right my brother. But, do you still remember when the sculptor tried to work on you but you resisted his tools."

"Yes, I despise that guy. He couldn't use those nasty tools on me?" Marble Tile answered.

Marble Statue explained, "Well, since you resisted his tools, he couldn't work on you. When he decided to give up on you, he started to working on me instead. I knew at once that I would be something different and unique after his efforts. I bore all the painful tools he used on me and allowed him to craft me as he wanted!.

MarbleTile exclaimed, "But those tools were so painful.

Marble Statue said calmly, "My brother, there is a price for everything in life. Since you decided to resist and gave up half way, you can't blame anybody who steps on you now".

The marble tiles silently listened to his brother's words and started to reflect on it.

Little boy with a slingshot

Once upon a time Sammy and his sister Marie visited their grandparents at their farm. Sammy picked up a slingshot to play with out in the woods. He practised in the woods, but he could never hit the target. Getting a little discouraged, he headed back for the lunch. As he was walking back, he saw Grandma's pet duck.

Just out of impulse, he let the slingshot fly which hit the duck square in the head and killed it. He was shocked and grieved. In a panic, he hid the dead duck in the pile of woods. Marry had seen it all from the window, but she said nothing. After the lunch, the next day Grandma said, "Marie, lets wash the dishes." Marie said, "But Grandma, Sammy told me he wanted to help in the kitchen."

Then she whispered to Sammy, "Remember the duck?", Sammy got nervous knowing her his sister knew about the duck and if he did not obey, she might tell his grandparents about it. So, without saying anything he did the dishes.

LIVEWORKSHEETS

Later that day, Grandpa asked if the children wanted to go fishing, but Grandma said, "I'm sorry, but I need Marie to help make supper. "Marie just smiled and said, "Well, that's all right because Sammy told me he wanted to help".

She whispered again to Sammy. "Remember the duck?" So, Marie went fishing and Sammy stayed to help. After several days of Marie taking advantage of sammy, he finally couldn't stand it any longer. He came to Grandma and confessed that he had killed her duck.

Grandma knelt down, gave him a hug and said, "sweetheart, I know. I was standing at the window and I saw the whole thing, but because I love you, I've forgiven you. I was just wondering how long you would let Marie take advantage of you.

Phubbing was first coined as a term im May 2012. An Australian advertising agency created this word to describe the growing of phenomenon of people ignoring their friends and family who were right in front of them and instead of scrolling through their phones.

One study found that more than 17 percent of people phub others at least four hour times a day. Almost 32 percent of people report being phubbed two to three times a day. While the behaviour might not seem like a big deal, research suggests phubbing may be hurting your relationships and your mental health. Read on to learn more.

Phubbing interupts your ability to be present and engage with people around you. Today, almost all people own a smartphone, so the phubbing problem may be getting worse.

Besides that, the effect of phubbing may be worse on people who found themselves at the receiving end of the phubbing. When someone phubs you, you may feel rejected, excluded, and not important. That can have a significant impact on mental health.

Research also shows that people who are phubbed are more likely to reach for their phones and try to engage with their social media network to fill that void. This is the start of a vicious cycle.

Above all, phubbing is a learned behaviour. It only reecently becomes a problem and you can unlearn it. It will take time and some work, but your mental health and your relationship will thank you for it.

Have you ever seen a solar eclipse? It is a natural phenomenon that happens when the moon passes in front of the Sun and blocks it completely. When you look up into the sky at the Sun and the Moon , you will notice a strange coincidence that can make you feel curious because they both look like the same size in the sky and you will see really beatiful sight.

An eclipse occurs at the times when the Moon moves into a position of direct alignment with the Sun and the Eart. There are three types of solar eclipses; a total solar eclipse, a partial solar eclipse, and an annular solar eclipse.

A total solar eclipse occurs when the new moon passes direcly between the Sun and the Eart. The moon's complete shadow (the umbra) sweeps across the narrow path of totality on the Earth. Daytime briefly turns into total darkness, and during these few precious minutes the halo of the Sun- the corona – comes into view as the dark disk of the Moon totally obscures the bright Sun. Outside the path of totally, in the Moon's partial shadow (the penumbra), some portion of the Sun's bright disk remain visible.

A partial solar eclipse also occurs when the Moon passes directly between the Sun and the Earth. However , only the penumbra touches our planet. The umbra passes either just above the North Pole or just below the South Pole, completely missing the Earth. N total eclipse is visible—only partial phases can be seen.

An annular solareclipse occurs when the Moon's umbra passesacross the Earth, but it doesn't take a long time to reach the surface; the shadow come diminishes to point before reaching the Earth. This effect happens when the Moon is farther out in its orbit around the Earth. The moon appears slightly smaller and is not completely large enough to cover the Sun. When the Moon, is centered over the Sun , a ring of sunlight remains visible around the edge. Because the Sun is not completely covered by the Moon, the rare and dramatic effects of a total solar eclipse are not present at either annular or partial eclipses of the Sun.

It is quite remarkable that a solar eclipse can occur because the Sun and the Moon appear from Earth to be about the same size in the sky. The Sun, whose diameter is 400 times larger than the Moon, is about 400 times as far away from the Earth. This condition permits the Moon to cover up the Sun. In fact, if the Moon's diameter (2,160 miles) was just 140 milesless. It would not be large enough to completely cover the Sun.

Indonesia's largest international airports have stopped flights to and from China following the government's decision to impose a temporary travel ban to prevent the spread of the corona virus, which was first discovered in Wuhan.

State-owned airport operator Angkasa Pura II (AP II), which runs Soekarno-Hatta International Airport in Cengkareng, Tangerang, confirmed the stoppage on Wednesday.

"We have prepared for this matter with all stakeholders, especially all airlines that serve flights from Jakarta to China and vice versa. We hope that this temporary halt to flights will be understood by all parties," AP II president director Muhammad Awaluddin said, as quoted by Antara News Agency.

Soekarno-Hatta is the only AP II airport that serves scheduled and regular flights to and from China. Before the ban, there had been 16 flight routes from Soekarno-Hatta to several destinations in China and vice versa. The routes included flights to Beijing, Guangzhou Baiyun, Shenzen Bao'an, Shanghai Pudong, Kunming, Nanning, Haikou Meilan, Fuzhou Changle, and Xiamen Gaoqi. During normal service, 143 takeoffs and landings occur weekly at the airport on these routes.

The airlines that offer flights between Jakarta and China are Air China, China Southern, Garuda Indonesia, Batik Air, Lion Air, Xiamen, China Eastern, Sriwijaya Air and Federal Express.

In addition to Soekarno-Hatta, Ngurah Rai International Airport in Denpasar, Bali has also temporarily stopped flights to and from China.

Disasters in Java Caused by Poor Spatial Planning

TEMPO.CO, Semarang - The Indonesian Forum for the Environment (Walhi) assessed that disasters occurring on Java Island were attributable to poor spatial planning. Consequently, Java contributed to the highest number of catastrophies in the archipelago.

Many areas on the island that should be water catchment areas have changed functions. "There is a function shift of protected areas to commercial use, whether for industry, offices, educational centers, or others. We call it spatial planning mismanagement," said Walhi's campaigner Abdul Ghofar in Semarang, Monday, January 23, 2023.

He noted that in the last four years, Java has become the epicenter of disasters in the country. In 2019, 2,351 disasters occurred, or 61 percent of the total national disasters. In 2020, there were 2,368 disasters, or 50.9 percent of the national disasters. In 2021, there were 2,511 disasters or 46.3 percent of the national disasters. In 2022, there were 1,839 disasters, or 51.8 percent of the national disasters.

"There are three provinces which over the past four years have become the three top biggest contributors to disasters in Indonesia. They are West Java, Central Java, and East Java," he said.

The massive conversion of land functions in Java has also been triggered by a large number of developments, both by government and private parties, including the national strategic project (PSN). "Java Island has 83 PSN, or 33 percent of the total PSN, with an investment value of Rp1,923 trillion," Abdul disclosed.

The high number of infrastructure development is also eased by licensing without adequate environmental standards. After the Government Regulation in Lieu of Law or Perpu on Job Creation Perpu and the Environment Minister's Regulation on the exception of the environmental impact analysis (Amdal) obligation were issued, the licensing process for spatial planning was relaxed.

LIVEWORKSHEETS

Meanwhile, no big cities in Java have fulfilled the obligation of green open spaces. “None of the big cities in Java have fulfilled the spatial planning law, namely 30 percent areas allocated for green open spaces,” Abdul underlined.

Walhi Central Java Executive Director Fahmi Bastian cited an example of mismanagement of spatial planning in Semarang. According to him, disasters often occurred in the city because the upper area which should function as a water catchment have turned into industrial and residential areas.

29. What caused the disasters in Java?
    A. Bad spatial management
    B. The change of land function
    C. Lack of green areas
    D. Large number of development
    E. Lack of water catchment

Sometimes the hardest thing about saving money is just getting started. This step-by-step guide on how to save money can help you develop a simple and realistic plan to save for goals, big or small.

1. Record your expenses
This first step is to figure out how much you spend. Keep track of all your expenses.
2. Make a budget
Once you have an idea of what you spend in a month, you can begin to organize your recorded expenses into a workable budget.
3. Plan on saving money
Now that you have made a budget, create a saving category within it. Try to save ten to fifteen percent of your income.
4. Choose something to save for
One of the best ways to save money is to set a goal. Start by thinking of what you might want to save for-perhaps you are planning a vacation. Then, figure out you will need.
5. Decide your priorities
After your expenses and income, your goals are likely to have the biggest impact on how you allocate your savings.
6. Pick the right tools

You don’t have to pick just one account. Look carefully at all of your options and consider things like balance minimums, fees, and interest rates.

If You Believe
By Strive to be & Patch Crowe

If you believe
You can move the highest mountains
Cross the greatest oceans and
Walk across the water, the water

You feel defeated, falling on your knees, and
Looking up for some hope tonight
You try to stand up
But you throw your hands up

Like you no longer have the strength to fight
'Cause you've seen too many sunsets
Too many days ending in the darkest night
But, on your own, you'll never know
You'll never know

They say that all you need is faith
But it's almost like you lost your way
Took a few wrong turns, took a few breaks
Falling behind now, looking for grace

'Cause you need someone to lift you up
Yeah, make right all the things you done
'Cause on your own, you'll never know
