

- |                                                            |                                     |                          |                                                             |
|------------------------------------------------------------|-------------------------------------|--------------------------|-------------------------------------------------------------|
| 1. Mr Kelly, our history teacher, gives                    | <input checked="" type="checkbox"/> | <input type="checkbox"/> | a project about the sea in our natural science class.       |
| 2. Last term my class group had to do                      | <input checked="" type="checkbox"/> | <input type="checkbox"/> | failed the test.                                            |
| 3. My biology teacher talks so fast it's difficult to take | <input checked="" type="checkbox"/> | <input type="checkbox"/> | marks in his final exams.                                   |
| 4. She didn't study so she                                 | <input checked="" type="checkbox"/> | <input type="checkbox"/> | really good lessons.                                        |
| 5. I didn't do any                                         | <input checked="" type="checkbox"/> | <input type="checkbox"/> | the English test because I learned all the vocabulary.      |
| 6. I'm sure I'm going to pass                              | <input checked="" type="checkbox"/> | <input type="checkbox"/> | a textbook because I think we need the teacher's help, too. |
| 7. I don't like only studying from                         | <input checked="" type="checkbox"/> | <input type="checkbox"/> | notes about everything she says.                            |
| 8. My brother got very good                                | <input checked="" type="checkbox"/> | <input type="checkbox"/> | homework last night because I wasn't well.                  |

My school is great,

The teachers give interesting   
 and they give us a lot of help so  
 we can pass our  
 and exams. I always get good  
 for the work we  
 do in class! Sometimes we study  
 from  but often  
 we do  in class  
 about interesting topics. Last week,  
 a scientist came to our class  
 to talk to us. We had to take  
 and then make  
 a poster about his talk. We often  
 have to do  after  
 school and at weekends, but only  
 a few  about  
 an hour a day, so I have time for  
 other activities.
