Bodies of Water and Landforms Study Guide

The Earth is covered in land and water, but it is not split evenly.

Look at this pie graph and decide which section represents water and which represents land. Color the water part blue and the land part green and label each part.

If we take a closer look at the water section, we see that not all of it is the same.

Most of the water on Earth is _____ water.

The rest of the water is called _____ water.

Word Bank

Fresh

Salt

Look at each of these picture. Label each picture and tell if it is salt or fresh water

Word Bank: Stream, River, Pond, Lake, Glacier, Ocean or Sea
