| Bodies of Water and Landforms Study Guide  |
| The Earth is covered in land and water, but it is not split evenly.  |
| Look at this pie graph and decide which section represents water and which represents land. Color the water part blue and the land part green and label each part. |
|  |
| If we take a closer look at the water section, we see that not all of it is the same.  |
| Most of the water on Earth is water.  The rest of the water is called water.  Salt   |
| Look at each of these picture. Label each picture and tell if it is salt or fresh water  |
| Word Bank: Stream, River, Pond, Lake, Glacier, Ocean or Sea  |
