

The third way is to create a digital
pantheon

Coding
School

❖ Below is the panthalon that I created

❖ Below is how to prepare the layout related to Pandan design using PowerPoint.

- ❖ Below is how all the light patterns of the Pantheon were created with Flash. Here the pantheon shows light patterns in the frame showing parts of the story.

- ❖ Watch the video below that describes how to create the Buddha ring in the pandal using Flash and create a beautiful Buddha ring with your patterns.

- ❖ Watch the following video explaining how to create the light patterns of the swan in the pandal with Flash.

- ❖ Watch the video below to add all the parts using HTML and create a beautiful panel. (part one)

- ❖ Watch the video below to add all the parts using HTML and create a beautiful panel. (part two)
