

Trường Mầm non Hương Sen- Quận Gò Vấp
Lớp: Lá 1

Câu hỏi: Bé hãy điền chữ số thích hợp để hoàn thành các ô tách/gộp bên dưới. 🔊

9

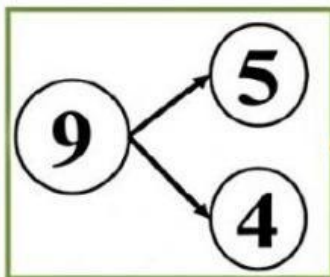

The diagram illustrates a subtraction problem: 9 ants minus 4 ants equals 5 ants. The top box shows 9 ants. The left box shows 4 ants, and the right box shows 5 ants, representing the result of the subtraction.

Visual discrimination task for grasshoppers. The top row shows two boxes on the left: one with 2 grasshoppers and one with 7 grasshoppers. To their right are two empty boxes. A large green arrow points from the boxes on the left to a single box on the right. The bottom row shows a box with 9 grasshoppers and an empty box.

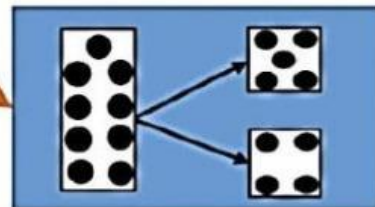

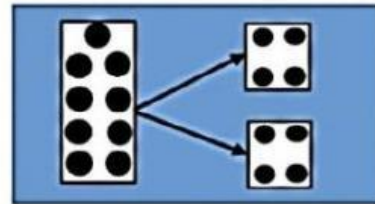

Visual discrimination task for butterflies. The top row shows two boxes on the left: one with 8 butterflies and one with 1 butterfly. To their right are two empty boxes. A large green arrow points from the boxes on the left to a single box on the right. The bottom row shows a box with 10 butterflies and an empty box.

Câu hỏi: Bé hãy nối các dãy tách/gộp ở cột A tương ứng với cột B.
