**Add a/an, the or -**

I love traveling, and I often travel by .....plane because it's fast. However, ..... airport is far from my house, and the security takes a long time.

When I'm in..... Europe, I prefer to travel by .....train. The trains are comfortable and clean, with beautiful views. But sometimes they are late, and .....tickets can be expensive.

I also enjoy traveling by.....car because I like driving and can listen to music. However, traffic can be bad, especially in.....cities.

Sometimes I choose to travel by .....boat for a relaxing experience. The food and drinks are usually good, but the journeys are slow and long.

Next year, I plan to cycle around .....France. It will be fun and healthy, and I can take photos and write about it. But I need to find ..... friend to join me and buy a good bike.

Overall, I love traveling to see .....different places, meet..... new people, and understand other cultures.
