## Mathematics - Problem Solving

### Topic: Add 3 Numbers

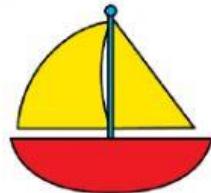

**READ** each word problem carefully.

**WRITE** a number sentence to solve each word problem.

**WRITE** all answers clearly.

[2 pts. each]

1. Jack has 3 blue boats, 2 red boats and 3 yellow boats.  
How many boats does Jack have?

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad} = \underline{\quad} \text{ boats}$$

2. Sam collects 5 brown shells, 4 white shells and 3 pink shells.  
How many shells does he collect?

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad} = \underline{\quad} \text{ shells}$$

3. Rob has 8 stickers. Mary has 4 stickers.  
Kate has 3 stickers. How many stickers do  
they have in all?

$$\underline{\quad} \bigcirc \underline{\quad} \bigcirc \underline{\quad} = \underline{\quad} \text{ stickers}$$
