

# Multiplying Fractions by Whole Numbers

Work out the calculations below, and put the answers in the boxes.  
You do not need to simplify your answers.

$$1. \frac{1}{2} \times 7 = \boxed{\phantom{00}}$$

$$6. \frac{2}{3} \times 8 = \boxed{\phantom{00}}$$

$$2. \frac{2}{3} \times 4 = \boxed{\phantom{00}}$$

$$7. \frac{5}{6} \times 9 = \boxed{\phantom{00}}$$

$$3. \frac{3}{4} \times 5 = \boxed{\phantom{00}}$$

$$8. \frac{5}{8} \times 4 = \boxed{\phantom{00}}$$

$$4. \frac{3}{5} \times 3 = \boxed{\phantom{00}}$$

$$9. \frac{1}{2} \times 6 = \boxed{\phantom{00}}$$

$$5. \frac{2}{4} \times 6 = \boxed{\phantom{00}}$$

$$10. \frac{4}{8} \times 7 = \boxed{\phantom{00}}$$
