

Hello everyone, my name is Kate, I am 15 years old. I am a high school student and this is my friend Justin, he is 16 years old and he lives in the city of California. We are in free time and I want to talk to you about the school supplies that we use in class. This is a pencil for math class and that is an eraser. In case I make mistakes with the numbers. Now, Justin shows your school supplies.

Ok, this is a notebook for chemistry class that is a stapler for physics class sheets, this is a highlighter for the science class, this is a scissors for craft class and this is a backpack where I keep my school supplies. In class we use many materials such as pencils, pens, books, clips, glue sticks, tape, among others. We hope to speak with you again very soon. Bye... Our teacher is here.
