

FICHA DE REFUERZO

1.- Escribe los elementos de la potenciación

Diagram illustrating the components of the power equation $12^3 = 12 \times 12 \times 12 = 1728$. Three empty orange boxes are connected to the equation by red arrows: one above the base (12), one to the right of the exponent (3), and one below the result (1728).

2.- Completa el recuadro:

| Potenciación | Multiplicación | Se lee |
|--------------|--------------------------|---------------------------|
| 12^3 | $12 \times 12 \times 12$ | doce elevado al cubo |
| 13^2 | 13×13 | Trece elevado al cuadrado |
| 25^2 | x | |
| 18^3 | x x | |
| 17^3 | x x | |
| 9^2 | x | |

3.- Completar el cuadro:

| Lectura | Base | Exponente | Potencia |
|-----------------------|------|-----------|----------|
| 4 elevado al cuadrado | | | |
| 5 elevado al cuadrado | | | |
| 6 elevado al cubo | | | |

4.- Resolver:
