

Fill in the gaps with the words from the box:

lend tinge king understated knick-knacks at ease

1. SCANDINAVIAN INTERIOR DESIGN STYLE

1

Scandinavian interior design is one that is born from the marriage of simplicity and functionality. It is characterised by light or neutral colour palettes that bring a _____ of light-heartedness into your home. There's also a preference for natural materials, so light wood furniture and wood accents are often incorporated into the design. But don't be deceived by its tidy, _____ look. While clean, almost-minimal Scandinavian interiors leave no

room for _____ or unnecessary adornments, it's all about quality, not quantity. There's a focus on selecting well-made, timeless designs.

The Scandinavian style is for you if...

- You're a fuss-free, easy-going person. Family and friends hold great importance to you, and hosting social gatherings at home is something that you enjoy doing.
- Comfort is _____ for you. Scandinavian interiors tend to _____ a touch of warmth and cosiness to the space. As the Danish will put it, it's a celebration of the culture of *hygge*, where you can find contentment in simple things.
- You're a bit of an eco-warrior – you believe in choosing sustainable design solutions, and feel _____ when you're with nature.
