	 <h3>Brayan's Bad Habits</h3> 
ORIENTATION	One day, there was a boy named Brayan who studied at Llano Oriental School. Brayan was in the 3rd grade, and he was very intelligent! But there was a issue, he got sick a lot and missed many classes.
	One day, Brayan's classmates noticed something. They saw him eating 10 candies and drinking a can of coke. That's a lot of sweets.
	The same day, the teacher Andrea noticed that when he went to the restroom, he didn't wash his hands.
	Then, Brayan's mom told the school coordinator, Juan Carlos, something important. She said that Brayan goes to bed at midnight.
	Poor Brayan. No wonder he gets sick so often. The coordinator told him he should eat healthy, wash his hands frequently and sleep early.
	Brayan followed his advice, and he was never sick anymore.
