REVISE pages 26-27 before you start.**1** Use the key to colour the climates of Spain.

- orange Inland Mediterranean
- yellow Typical Mediterranean
- green Oceanic
- purple Mountain
- pink Subtropical

2 Complete the table about the climates of Spain.

Climates	Temperatures	Precipitation
Inland Mediterranean climate		
Typical Mediterranean climate		
Oceanic climate		
Mountain climate		
Subtropical climate		

3 Write in your notebook which climate is found where you live.

NAME

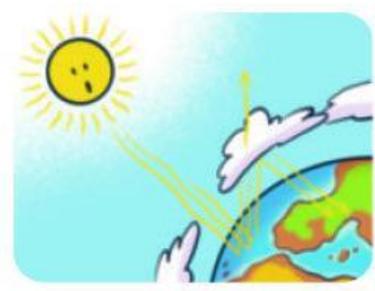

DATE

REVISE pages 28-31 before you start.

1 Complete the text about the causes of climate change.

pollution - gases - carbon dioxide - greenhouse - temperature

Air happens when smoke and toxic substances, like are released into the air.

Greenhouse in the atmosphere naturally warm the Earth and make it a comfortable place to live.

Too many gases trap more heat. The average rises quickly.

2 What effect of climate change can you see in the picture? What are its consequences for people? Explain.

SOCIAL SCIENCE 4. PRIMARY

3 Classify these causes and consequences of climate change.

drought - burning of fossil fuels - hurricanes - global warming - melting of the polar ice caps - air pollution - loss of biodiversity

CAUSES

.....

.....

.....

.....

.....

.....

.....

CONSEQUENCES

.....

.....

.....

.....

.....

.....

.....

- Write more consequences for people of climate change.

4 What are these people doing? How does it affect climate change? Write.

.....

.....

.....

.....

.....

.....

.....

5 What other actions can people take to slow down climate change?

.....

.....

6 Draw and label in your notebook the effects of climate change on people.
