I still think about you, as I ..... through all your texts

The naughty things you would say around the ..... we first met

Yeah, you ..... that we'd definitely go all the way

I should have given you .....

I should have begged you to stay

Another ..... heart

Another hopeless cliché

With a .....and a twist of the knife, you were gone

You were gone

Now I can't do anything ..... but leave with a smile

And ..... that somebody else will come find me in a while

Somebody new

Just, just, just like you

Do you still ..... about me?

Or is it all about you?

Each time I ..... your face

I can't help see him with you

Do you know what I'd give just to ..... your mind?

She'll do the things that you do

She'll ..... me like you used to

I'll just ..... that she's you

So while you're falling in ....., I'll be falling apart

I'm calling your ..... as I crawl back to the start

Still wondering why?

Did I give everything up?

You don't just ..... out of love

You wait 'til you find someone else
