Reading

Biscuits, biscuits, biscuits**1**

No, but they're very popular. Around 53% of Brits (British people) say they love biscuits and there's even a National Biscuit Day, on 29 May. Brits buy a lot of biscuits – around 500 a year – and they eat more biscuits than any other country in the world. They even eat 35% more biscuits than Americans.

2

Biscuits are hundreds of years old. The word comes from the French, meaning twice (*bi*) cooked (*cuit*). In the past, people cooked biscuits two times, but today we usually only cook them once.

3

Because they are hard, biscuits stay fresh and they're light. Roald Amundsen took some biscuits with him on his trip to the South Pole in 1911. He was the first person to reach the Pole. Years later, in 1969, the astronaut Buzz Aldrin took biscuits with him into space.

4

Most Brits put their biscuits in a special biscuit tin and 61% of people in the UK have one. However, some people hide their favourite biscuits. They don't want anyone else to eat them! Nine percent of people hide them in their chest of drawers, 7% under the bed, 7% at the back of the wardrobe and 10% in the small table by their bed.

5

Jaffa Cakes are a popular biscuit made with jam and chocolate and people eat over a billion a year. Next to each other, the biscuits could go from London to Sydney and back again – that's nearly 34,000 km! Custard Creams are another top biscuit. In 2010, in a city called Nottingham, they cooked a giant Custard Cream. It was 59 cm long and 15.73 kilograms!

11 Read the information leaflet and match the headings (a–e) to the paragraphs (1–5).

- a Where do people keep them? _____
- b Are biscuits the best snack? _____
- c Which ones do people like? _____
- d Why do people travel with them? _____
- e Where does the name come from? _____

Score ____/5

12 Complete the sentences with one to two words.
