My hobby is bowling . It's a popular sport in the USA. I'm not very good at it, but it doesn't matter because it's fun! My family love bowling because we can do it together and we always have a good time. In the USA, you can also watch bowling on TV and there are lots of bowling competitions.

We'd love to try bowling!  We live in Dublin, the capital of Ireland. Our hobby is Irish dancing  and it's very popular here. It isn't a sport, but it's good exercise and you need to be fit and strong.

We belong to a club and we practise every Sunday. Sometimes, we perform for our local community. We haven't got any photos, but why don't you look for videos of Irish dancing online? It's amazing.

Bowling and Irish dancing sound really fun! My hobby is foraging. It isn't popular in New Zealand. My friends think it's unusual! I go with my mum into the countryside and we look for plants, fruit and vegetables that we can eat. It's a great hobby for me because I love being in the countryside. In this photo, we're picking blackberries.
