MY FAVORITE STREET!

Complete the following text with the prepositions from the students' guide.

My favorite street is Blossom Street because there are many important places and it is always a busy street. My house is the corner on Vine Street so I live near the school. I don't know why but I am late for school almost everyday anyways! My school is Blossom Street. My dad works the fire station and he always pick me up to get back home. We go on foot and we normally buy something for lunch the fast food restaurant to the church.

My mom works the hospital. She is a nurse and she takes care of people hospital. She gets back home two hours after my dad and I. Sometimes my dad and I wait her to clock out the park. The park is from the hospital and to my school. There are other times when my grandmother comes to visit us. She lives ten from our home. She always comes by car. She buys some food for lunch the fast food restaurant and she parks her car the parking lot the church.

As you can see, we spend most of our days that street. I love going to the museum to the fire station. It has some amazing signs of the building. There are incredible artworks with a lot of history that place and there is always something new to see. I also love the coffee shop from the park. When it is sunny, I go and buy something to drink, I cross the street and I enjoy my coffee while I read a good book.
