HOW TO PACK YOUR SCHOOLBAG

Choose a good bag. A bag with different parts and pockets is a good idea. It helps you to organise your things and it helps to keep your bag tidy.

Pack your things for today's classes, not tomorrow's classes. For example, pack your **(a)** *snack/calculator* for today's maths class.

Use the big part of the bag for big things, like your **(b)** *laptop and folders/glasses and earphones*.

Turn off your **(c)** *folder/phone* and put it in the small part of your bag.

Have you got your **(d)** *trainers/marker pens* in your **(e)** *pencil case/water bottle*?

Use the outside pockets for your food and drink. So put your **(f)** *snack/earphones* here.

Don't forget your trainers for **(g)** *PE/ computer science* or your reading book for **(h)** *art/English*!
